STEAM on Wheels: Girl Scouts drive innovation with mobile learning truck

girl scouts of southeastern michigan

Girl Scouts of Southeastern Michigan's Mobile STEAM Lab is taking Science, Technology, Engineering, Arts and Math (STEAM) on the road! This state-of-the-art mobile classroom is designed to spark creativity, inspire innovation, and empower students by bringing hands-on STEAM experiences directly to students in metro Detroit.

A field trip on wheels:

- Hands-on experiments and interactive demos
- Tech-powered learning stations
- Creative art projects that build in STEAM concepts
- Coding, robotics, engineering programming and world of STEM careers exploration!

Available for booking at schools (grades K-5) and for community events and organizations starting in the fall of 2025!

Help GSSEM try out the new Mobile STEAM Lab!

The **GSSEM Mobile STEAM Lab Pilot Program** is free to invited K-5 schools throughout metro Detroit.

- 8-week pilot program* launches April 14
- Participation is limited to 12 schools
- Pilot program will serve K-5 students at selected participating schools
- Interested schools must submit interest form online by March 7, 2025

www.gssem.org/pilot

*Pilot program participation is free. After the pilot period, schools can schedule the Mobile STEAM Lab with applicable costs.
